

DDS

Endocrinology, Cardiovascular Medicine, & Urology

By: Kimberly

Tasks in Endocrinology:

- Making about 70 patient reminder phone calls
- Turn over patient rooms
- Sanitize the waiting rooms

This is my manager Nanci Malahan from the Endocrinology department. She is always very nice to me and says that I work hard.

Tasks in Cardiovascular Medicine:

- Making patient reminder phone calls
- Turn over patient rooms
- Sanitize both waiting rooms
- Highlight Hartford Healthcare forms for all patients
- Recycle all used papers
- Sanitize all commonly touched surfaces

Cardiovascular:

Tasks:

- Making patient reminder phone calls using a checklist
- Turning over patient rooms by sanitizing the blood pressure cuffs

This is my manager Amanda Sheagren from the Cardiovascular department. She gives me a checklist to complete my patient reminder phone calls. She also says that I work very hard.

Tasks in Urology:

- Turn over patient rooms
- Transport “dirty” medical equipment to Sterile Processing
- To bring back clean medical equipment back to the department
- Restock all supplies
- Learning how to fill out forms for the Sterile Processing for pick up and drop off

Urology Tasks

This is my manager Daniella Oulette, Fawn, and myself. They give me different tasks to do and they say that I work very well.

Classroom:

- Practicing food prep with white bread
- Practicing interview skills with Deni & Shelli from HR
- Working on Chromebooks to complete our slideshows
- Presenting slideshows to CHH staff
- Sierra came to visit and talk about the application process for a job

What I enjoyed from 3rd Internship?

I enjoyed shadowing in Urology and turning over rooms in Cardiovascular and Endocrinology.

What's next?

I am hoping to get a good paying job at the hospital in the Urology department.
