

Storeroom, EVS and Cardiac Rehab

Reid 2023

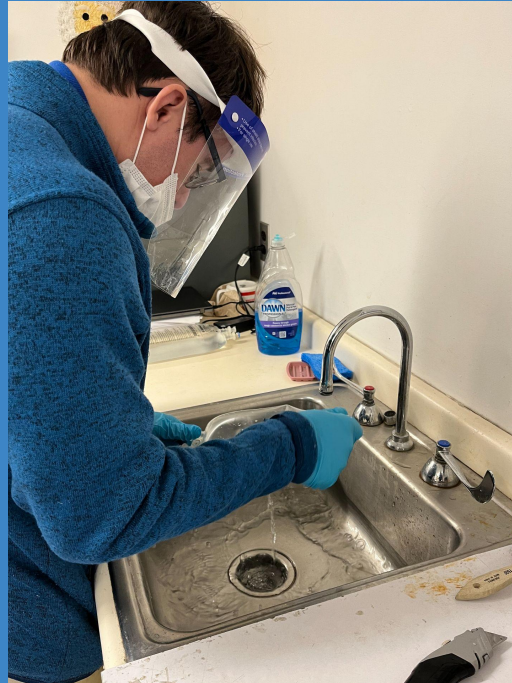

Managers of the storeroom are Nancy and Brice. They find tasks for me.

I repack masks - 20 in a bag, dispose of saline bags and sealed needles, and recycle papers.

I restock supplies, break down boxes and assemble kits.

Other jobs I do in the storeroom are:

I also read picking sheets and pick supplies from storeroom shelves. I get orders ready for different departments ahead of time so they can pick the order up.

EVS

**Veronica is the manager.
She finds tasks for me to do.**

What I do in EVS

- I go around the hospital and collect the trash
- For 30 minutes before lunch, I do some vacuuming
- I also do cardboard recycling for the storeroom
- I navigate the hospital with badge access

Pictures of cardboard and Bio bins

- I put the cardboard in the dumpster
- I help move the full bio containers and I follow all safety rules

This is Dave. He is my favorite to work with in EVS. Dave and I get the work done fast and efficiently.

Things I do in Cardiac Rehab

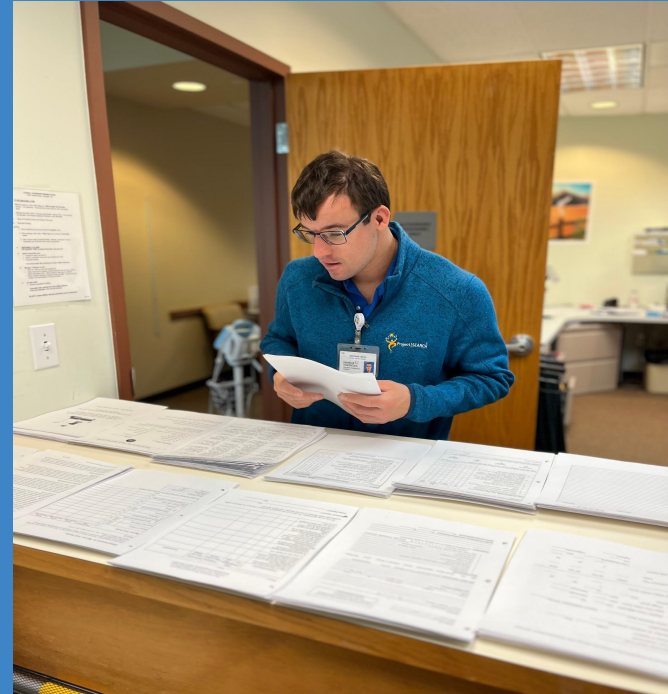

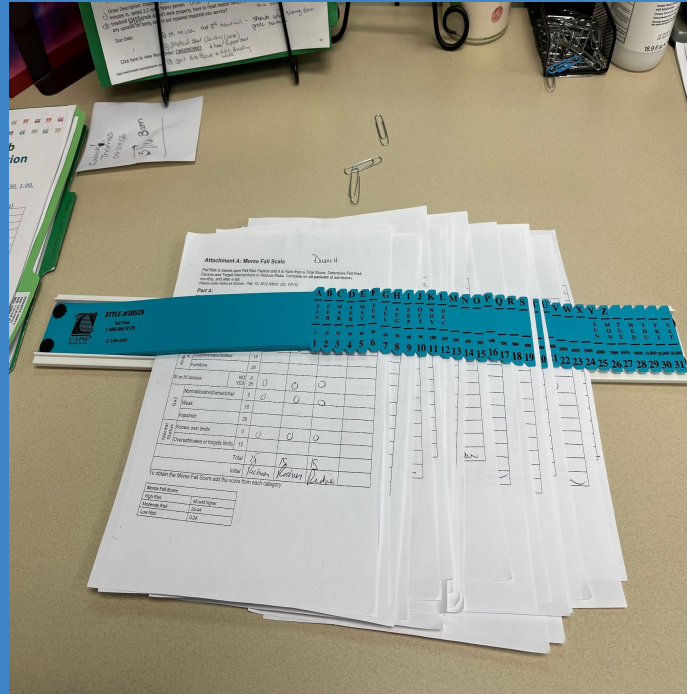

This is Lynn and Carol

What I do in Cardiac Rehab

- Sanitize exercise machines and surfaces
- File documents in alphabetical order
- 3 hole punch papers

Pictures of me in Cardiac Rehab

What I did in the classroom

- We had Sierra come to the classroom to talk about jobs
- Team building
- Food prep practice
- Self advocacy
- Fill out job application
- Went to a job fair
- Went for a job interview at the hydroponics center and got successfully hired

Team and lifestar

Here is, Chris, me, Kim

What I enjoyed in the 3rd internship

In EVS, I enjoyed going around the hospital to do trash with Dave.

What's next...

I accepted a job at the Mayfield Hydroponics Center.

I will be transplanting and packing lettuce.
